## EXPERIENCE

**Full Stack Web Developer** **August 2019 - March 2021**  
**Roshi Health — Html, CSS3, Material UI, JavaScript, Api's, React, Node/Express**  
**Small Telehealth startup (Project)**

- Teamed up with one other developer to build the entire application from conception to deployment based on consumer demand and industry standards.
  - Developed, tested, deployed, and maintained frontend and backend functionality.
  - Demonstrated problem solving and analytical skills by defining test plans, and identifying bug fixes as needed.
  - Lead back-end developer creating database.
  - Experience working with other developers using Git/GitHub or another relatively similar version control system
- Github: <https://github.com/Ningauble479/RoshiHealth2.0>  
Website: N/A No longer live

**Full Stack Web Developer** **December 2020 - March 2021**  
**Lune — Html, CSS3, JavaScript, Api's, React, Nextjs Node/Express**  
**Subscription based social platform (Project)**

- Me and another developer created this from scratch
  - Developed, tested, deployed, and maintained frontend and backend functionality.
  - Demonstrated problem solving and analytical skills by defining test plans, and identifying bug fixes as needed.
  - Lead back-end developer creating database.
  - Experience working with other developers using Git/GitHub or another relatively similar version control system
- Github: <https://github.com/MeowTaiga/Lune>  
Website: <https://Lune.network>

## EDUCATION

**UCI, Irvine — Bootcamp**

June 2019 - August 2019

UCI's full stack web developer bootcamp was a full time web development and programming course teaching you the basics for developing the front and back end of a web app. It laid the groundwork for me to develop into a more advanced programmer.

## Languages

MongoDB/Mongoose

NodeJS/Express

CSS

HTML

SQL

GraphQL/Apollo

PHP

## Frameworks

Next.js

React JS/Material-UI

Vue

Laravel

## Web Hosting/Servers

Azure

AWS

Heroku

Linux (CentOS7, Ubuntu)

## Version Control/Task Management

Github/Git

Trello

Asana

Agile/Scrum
